"This quarter almost 12 million people and businesses used Wise to move \$69.3 billion across the world. These customers paid an average fee of just 50bps - the lowest it has ever been on Wise. In 77% of the transactions, their money arrived instantly on the other side of the world. More customers are trusting Wise for their everyday money - their holdings grew 31% to \$41.2 billion.

*We present cross-border volume on a constant currency basis to facilitate comparison of underlying growth trends without the effects of exchange rate fluctuations. To calculate cross-border volume on a constant currency basis, we translate volume for the current period using the average monthly exchange rates from the comparable prior period for operations with functional currencies other than the U.S. dollar.

Differences between 'total' rows and the sum of the constituent components of personal and business are due to rounding.

¹ Total number of unique customers who have completed at least one cross-border transaction in the given period.

² Cross-border volume only.

³ Customer balances do not include Assets under custody, which are not recognized on Wise's balance sheet.

⁴ Assets under custody represent customer deposits held via Wise Assets.

⁵ Customer holdings is the sum of customer balances held directly and those held via Wise Assets (which are not recognized on Wise's balance sheet).
